

SAMUNDRA SUBEDI

FULL-STACK DEVELOPER

+977 980 668 3020

its.samundra@gmail.com

github.com/SammSubedi

Kathmandu, Nepal

+ SUMMARY

Full-stack developer with hands-on experience building and shipping web applications, currently focused on the PERN stack. I've built everything from community platforms and job portals to a live portfolio website. Pursuing a degree in Computer Engineering alongside my work. I also bring a creative edge through graphic design, video and photo editing.

+ EDUCATION

- 2021 — Present
Bachelor of Computer Engineering
Gandaki College of Engineering & Science (GCES)
Pokhara University · Kathmandu, Nepal
- 2019 — 2021
Higher Secondary — Science (Computer)
Karunanidhi Education Foundation (KEF)
NEB Board · Physics · Mathematics · Computer Science

+ PROJECTS

Portfolio Website

PERN STACK · SUBEDISAMUNDRA.COM.NP ↗

A dynamic personal portfolio website built with PostgreSQL, Express, React and Node.js — live at subedisamundra.com.np.

Chautari

MERN STACK

A community discussion and content-sharing platform inspired by traditional Nepali gathering spaces, enabling real-time conversations and multimedia posts.

JobBridge

MERN STACK

A full-stack job portal that bridges employers and job seekers with listing, search, and application management features.

Assignment Management System (AMS)

MERN STACK

A web-based system for managing and tracking academic assignments, built with a RESTful API backend and React frontend.

ProjectAssassin

UNREAL ENGINE

A 3D action game featuring a fully animated character controller with combat, HP & stamina systems, vaulting, climbing, and a lock-on targeting system.
